Hi Jenny

I have been trying to read through the NWEA comment letter and realized that in it they reference the attached "Declaration of Jonathan Rhodes" which contains 25 additional comments on deficiencies in the ag provisions of the CNCP and the ODA ag rules. I have added these into the attached spreadsheet. The NWEA letter also make reference to several pre-public comment letters from NWEA to EPA and NOAA. I don't know whether the comments in those letters should be added into the public comment response.
